

2009 Relief Teaching Seminars

April–December

Resource Ed Personnel regards relief teaching as a vital role with *specialised expectations* and requiring *unique strategies and skills*.

All relief teachers, whether already teaching, newly qualified, newly arrived, returning to teaching, retired, or just contemplating casual or contract employment in Victoria gain great value from the seminar.

We provide a workshop format of up to three hours in which participants investigate issues and refresh their understandings relating to:

- *VELS (Victorian Essential Learning Standards) and the school curriculum*
- *classroom teaching programs*
- *student learning and management*
- *highly effective relief teaching strategies*
- *teaching opportunities and professional pathways*
- *the school as your workplace: industrial and legal*
- *professional resources and support*

Participants receive a kit of supporting literature with a wealth of practical ideas and materials, and may browse through a display of teaching resources designed and presented especially for the relief teacher.
